Sri M.T. Raju, Bar-at-Law., I.C.S.,
Director of Industries & Commerce,
Madras.6.

To
The Secretary to Government
Development Department,
Madras.

No.3746.D1/50. dated 25-7-50.

Sir,

Sub: Industries - Sericulture - Govt.Silk Filatures. Kollegal Purchase of two centrifugal pumps Expenditure sanction of - Proposals.

Two centrifugal pumps were purchased in 1948 and installed at theGovt.Silk Filatures, Kollegal for pumping water from bore wells to the service tank. The Sericultural Expert has reported that due to long use, the pumps have worn out and giving constant trouble and work in the filature is often handicapped for want of adequate water supply. He has further stated that if both the pumps stop working at the same time the whole work in the filature will suffer. He has therefore suggested that both the pumps may be replaced by new ones as early as possible. The cost of replacement will come to about Rs.500/-. I support theSericultural Expert's suggestion and request that Government may be pleased to sanction an expenditure not exceeding Rs.500/- towards purchasing two new centrifugal pumps for the Govt.Silk Filatures, Kollegal. I request early orders of Government.

Sir,

Sub: INDUSTRIES - Sericulture - Government Silk Filatures, Kollegal - Purchase of two centrifugal pumps - Expenditure - Sanction of.

Ref: Development Department T.M. dated 29-7-50.

Sanction for the purchase of two 1½" centrifugal pumps was accorded in G.O.No.2927 Development dated 25-7-45. In this connection I have to state that the year given as 1943 in this office letter No.3746 D1/50 dated 25-7-50 was a mistake for 1945.

/Development

The Sericultural Expert has explained that on account of continuous use of the pumps in the filature, the impellers and the main shafts including the ball bearings have become worn out and for the past one year there have been frequent troubles with these pumps. It was possible to pull on till now with minor repairs carried out in the workshop attached to the filature but that it is not possible to repair them any longer. He has added that even if new impellers and main shafts with suitable ball bearings are fitted to the old pumps, the cost will be as high as that of purchasing new ones. In the above circumstances, I request that Government may be pleased to permit the purchase two new pumps for use in the filature. I request early order of Government.
